

LIBERTY

LIFE COVER

Leave your family financially secure and supported

- Tax-free lump sum life insurance payout of up to R10 million.
- Direct application process over the phone.
- Unlimited beneficiaries. Add as many as you want. Change them at any time.
- Straightforward cover.

Cherish the small moments, knowing the big events are covered.

Liberty's direct life cover product offers a tax-free lump sum payout of up to R10 million to your chosen beneficiaries when you pass away.

You can take out Life Cover directly over the telephone, without filling in any forms or going for full medicals.

How does it work?

The payout amount, or cover, you will qualify for is based on your risk profile, which is determined by a number of factors. These include your gender, age, smoking habits, income, education and how healthy you are at the time of application. For instance, your BMI (Body Mass Index) - a formula taking your height and weight into account - is an indicator of your health and counts towards your cover. Your monthly payments are tailor-made and calculated based on these factors and the cover you choose.

What am I covered for?

- You will be covered for death by natural causes and accidental death (non-natural), unless specified. Terms and conditions apply.
- If we have received your monthly payments consistently and a valid claim is submitted, your chosen beneficiaries will receive a once-off lump sum payout when you die.
- You can choose an unlimited number of beneficiaries and the percentage of payout you want each of them to have.
- You can change or add beneficiaries at any time.

When won't I be covered?

- You won't be covered for suicide, or death due to self-harm, for the first 24 months of the cover.
- If you die while breaking the law or while intentionally putting yourself in a position where you are exposed to war or war-like activities, you may not be covered.
- You will not be covered for any exclusions communicated to you.
- You must have an HIV test within 90 days of your cover start date. If you don't or if your test comes back reactive, your cover will be converted to

an option that is limited to non-natural (accidental) causes of death only. Non-natural cover differs as it only pays out if you die as a result of an injury from an accident and not as a result of any disease or health problems.

Get R1 million
life insurance from
R141* per month

*cover and premiums dependent on individual risk profile. T&Cs apply.
